## PROFESSIONAL SUMMARY

Marketing manager with seven years building go-to-market, partnerships and brand trust for expert-led, regulated products in healthtech, fintech and AI edtech. At Ivory, took an FDA-registered brain health product from consumers into hospitals, including NIMHANS, through clinical positioning, creator and age-tech partnerships, industry events and national PR on Shark Tank India. At Wahed, set one brand voice across four SEC-regulated markets. Works closely with founders and senior business leaders, manages agencies, vendors and budgets across multiple projects, and builds AI agents to take on the repetitive work.

## SELECTED ACHIEVEMENTS

- Built an AI brain with Claude Code on a founder's books, talks and philosophy, so publishing across LinkedIn, Instagram and the site turned from writing into approving.
- Raised $1M across Shark Tank India and Meet the Drapers by simplifying neuroscience to pitch on television.
- Grew an audience from 2k to 35k (65% organic) and past 100M views on Instagram, YouTube and LinkedIn.
- Lifted global brand awareness at Wahed from 4.5% to 30% by launching the Muslim Money Guys podcast with Paul Pogba, Khabib and Islam.
- Delivered 125 AED cost-per-lead on a 4,500 AED course ticket at Stratos in month one of paid, a 2.7% customer acquisition cost ratio.
