PROFESSIONAL SUMMARY

Seven years taking difficult products to market. An FDA-registered cognitive health checkup into hospitals. A halal investing platform across four SEC-regulated markets. An AI school for people who have never written code. I run brand, content and community, and I build the AI systems underneath so the work ships without me in the middle of it.

SELECTED ACHIEVEMENTS

- Built an AI brain with Claude Code on a founder's books, talks and philosophy, so publishing across LinkedIn, Instagram and the site turned from writing into approving.
- Raised $1M across Shark Tank India and Meet the Drapers by simplifying neuroscience to pitch on television.
- Repositioned an FDA-registered Cognitive Health Checkup from consumer to clinical and got it deployed into hospitals and clinics.
- Grew an audience from 2k to 35k (65% organic) and past 100M views on Instagram, YouTube and LinkedIn.
- Lifted global brand awareness at Wahed from 4.5% to 30% by launching the Muslim Money Guys podcast with Paul Pogba, Khabib and Islam.
- Delivered 125 AED cost-per-lead on a 4,500 AED course ticket at Stratos in month one of paid, a 2.7% customer acquisition cost ratio.
